

HILCLARE

LIGHTING MANUFACTURER

— LED BY DESIGN —

HILCLARE DELIVERS SEAMLESS SERVICE AND SAVINGS FOR KDM

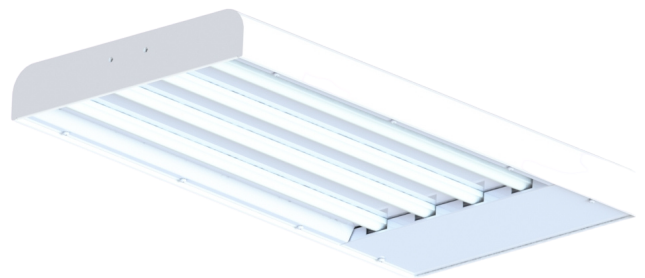

One of the UK's leading LED lighting specialists, Hilclare, has delivered a lighting refit at KDM's offices which will secure significant savings and reduced energy consumption for the brand.

Lighting specialists, Hilclare, were called in to the KDM offices to provide a new option to the mixture of standard tube lighting and down lighters located within the factory and offices.

The main drivers for this change to LED lighting were to create cost savings, reduce maintenance and energy consumption.

National Sales Manager at Hilclare, Stuart Clark comments: "It's been a pleasure to work on this project at KDM. We have

provided a lighting refit and importantly we have reduced their power consumption from 19KW down to 9KW. This reduction in power consumption will ensure that KDM see significant savings generated from the introduction of these lights."

Hilclare's latest high bay lumiere, the Imperior

Process & Implementation Manager at KDM Group, Graeme Thomson said: "We're extremely pleased with Hilclare's level of service, from the sales teams scoping visit right through to their support post installation.

The scoping visit was extremely thorough and we were given a clear indication of what was needed and the potential savings this would generate. We wouldn't hesitate in recommending Hilclare or using them in the future for any of our own projects."

Incorporated in 1999, KDM offer a variety of construction services to clients throughout the UK and mainland Europe which include fit out, project management, manufacturing and design. KDM has developed successful long term principal contracting and fit out contracts for many blue chip companies with clients throughout the retail, commercial, leisure and public sectors.

"The scoping visit was extremely thorough - we were given a clear indication of what was needed and the potential savings this would generate."

Hilclare use the latest technology to design and specify bespoke lighting solutions and manufacture industrial and commercial luminaires of the highest quality, in a state-of-the-art UK facility.

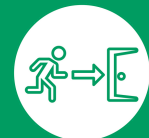

Bandera Pro is a range of quality commercial LED downlights

Part of Pilot Group Infrastructure that provides sustainable energy solutions for commercial environments, Hilclare specialises in commercial lighting solutions for business, industrial and public sector settings.
